## CORPORATE SOCIAL RESPONSIBILITY

We believe in an ethical conduct, institutional and clear management, respect to our co-workers and in the sustainable development of our activities. Our responsibility is to contribute, in preserving the good customs, to society and the environment, so that the future generations may have guiding lines and references of the valuable social-environmental actions and responsibilities.

We have also joined, voluntarily, the “Empresa Cidadã” Program, which makes possible the extension of the period of the maternity and paternity leave from 120 (one hundred twenty) to 180 (one hundred eighty) days and from 5 (five) to 20 (twenty) days, respectively. By joining this program, we reinforce the necessity of the family institution in the society and the importance that our team has in the institution. Besides the provided extensions of the maternity and paternity leaves, the PLBrasil Group also ensures leaves in case of children adoptions, including by same-sex couples.

Lastly, we provide pro bono services voluntarily to institutions and/or organizations that benefit people who need it the most and the society in a broad way.
